

Hicharms

Zirconium Blanks For Dental use

Manufacture

Hicharms zirconium blanks are made in China from high quality yttrium stabilised zirconium oxide. Because we only use the highest quality zirconia the blocks are pure white with no discolouration. Approved to ISO13485.

Sizes

Our standard sizes are given below. Should the size you require not be given below, just ask and we will make it. We are for example setting ourselves up to make Lava zirconium blocks for 3M Espe Lava milling machines so we will very shortly be offering blocks 64mm x 38mm x 15mm.

Blocks
